

Learn more about our lactation support services to help breastfeeding employees continue to give their baby the best start in life!

- Healthier babies means mothers and fathers have to use fewer sick leaves to care for sick infants.
- Because mothers and babies are healthier, company healthcare costs are significantly lower!
- Mothers who breastfeed are healthier. Their risk of breast cancer and osteoporosis is lower, and they recover from pregnancy and childbirth faster.
- Breastfed babies are healthier! They have fewer infections and illnesses, even if they are in daycare.

Mothers who choose to breastfeed are doing a world of good for their baby AND the company!

Supporting Breastfeeding Makes Good Business Sense!
